DALTON IN FURNESS URBAN DISTRICT COUNCIL

ANNUAL REPORT

OF THE

MEDICAL OFFICER OF HEALTH

FOR THE YEAR

1965

Divisional Health Offices,
Brogden Street,
Ulverston.

To the Chairman and Members of the
Dalton in Furness Urban District Council.

Mr. Chairman, Ladies and Gentlemen,

I have the honour to present to you the Annual Report of the Medical
Officer of Health for the year 1965.

GENERAL STATISTICS AND SOCIAL CONDITIONS

Area in acres	8,022.
Population - Census, 1961	10,316
- Registrar General's Estimate of home population, mid 1965	10,500
Number of inhabited houses	3,713
Rateable Value	£240,371
Amount produced by a Penny Rate	£999.

The Urban District of Dalton-in-Furness is situated in the North Western part of the County of Lancashire adjoining the County Borough of Barrow-in-Furness and the North Lonsdale Rural District. Height above Ordnance Datum varies between 850 feet in the north-east to sea level in the west. There are outcrops of limestone in various parts of the District and in the past there has been extensive mining for iron ore which has left the surface considerably scarred and some of the low lying areas flooded with water.

The chief industries are viscose manufacturing, shoe-making, brickworks, clothing manufacture and agriculture, but a large proportion of the male working population is employed in the shipyards and engineering works at Barrow-in-Furness.

VITAL STATISTICS

The principal vital statistics for the year 1965 and for the preceding five years are given on page two.

190 live births were registered, 106 being males and 84 females. 4 male and 7 female were illegitimate.

Approximately 66% of the deaths were in persons of 65 years of age and over and the principal causes of death were:- Heart disease 58, Malignant growths 19, and Vascular Lesions of the nervous system 28. Of the 58 deaths from Heart disease, 33 were due to Coronary Artery disease.

The adjusted live birth rate of 19.0 per 1,000 and the adjusted death rate of 14.0 per 1,000 can be compared with the corresponding rates for England and Wales of 18.1 per 1,000 and 11.5 per 1,000 respectively.

SANITARY CIRCUMSTANCES OF THE DISTRICT

WATER SUPPLY

The provision and maintenance of public water supplies throughout the District is the responsibility of the Furness Water Board. Dalton is supplied from Poaka Beck reservoir and Askam from the Ulpha intake of the River Duddon.

No new sources of supply were acquired during the year but the main was extended to supply the new estate of private dwellings at Dalton.

The supply was satisfactory in quantity and quality throughout the year.

3,691 houses are now supplied direct from public mains, 3 from standpipes and 14 have private supplies.

SEWERAGE

The sewage from Dalton is taken to screening tanks near the site of the old gasworks and the effluent is then discharged to the Barrow Corporation sewerage system. The sewage from Askam is passed through screening tanks and the effluent discharged to the Duddon estuary. Sewage from the hamlet of Newton passes through a settlement tank, the effluent being discharged to a stream. Lindal and Martin have modern sewage disposal plant where full treatment is given before discharging the effluent to nearby streams.

5 houses have privy middens and another 2 have pail closets, the remainder being on the water carriage system.

PUBLIC CLEANSING

A weekly collection of refuse is made and trade refuse is collected subject to payment of an annual charge.

Dustbins are renewable by owners or occupiers of houses.

HOUSING

Property in the District is generally 60-80 years old, terrace type, opening direct on to the street. For the most part the houses are structurally sound, but many are without modern amenities such as baths and hot water system. There is a general lack of damp courses but little evidence of rising dampness. Repairs and improvements are slow to be carried out. A notable feature is the number of houses which are owner/occupied; this is estimated by the Rates Department to be 70% of the total hereditaments. In addition a further 17% are owned by the Council.

A caravan site at Askam is licensed for 17 permanent and 45 holiday caravans.
